Board of Pension Trustees
State of Delaware
McArdle Building
860 Silver Lake Boulevard, Suite 1
Dover, Delaware 19904

Dear Members of the Board:

At your request, we have conducted the annual actuarial valuation of the Delaware County & Municipal Employees' Pension Plan as of June 30, 2007. The results of the valuation are contained in this report. The purpose of the valuation is discussed in the Foreword.

This report contains information on Plan assets, as well as analyses which combine asset and liability performance and projections. The report also discloses employer contribution levels, and required disclosures under the Governmental Accounting Standards Board Statement No. 25.

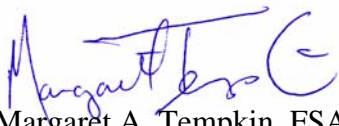

Your attention is called to the Foreword in which we refer to the general approach employed in the preparation of this report. We also comment on the sources and reliability of both the data and the actuarial assumptions on which our findings are based. Those comments are the basis for our certification that this report is complete and accurate to the best of our knowledge and belief. The results of this report are only applicable to the County and Municipal contributions for Fiscal Year ending 2009 and rely on future plan experience conforming to the underlying assumptions. To the extent that actual plan experience deviates from the underlying assumptions, the results would vary accordingly.

We hereby certify that, to the best of our knowledge, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the Code of Professional Conduct and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board, and that as Members of the American Academy of Actuaries, we meet the Qualification Standards to render the opinions contained herein.

Sincerely,
Cheiron

Fiona E. Liston, FSA

Margaret A. Tempkin, FSA
Actuary

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

FOREWORD

Cheiron has performed the actuarial valuation of the Delaware County & Municipal Employees' Pension Plan as of June 30, 2007. The purpose of this report is to:

- 1) **Measure and disclose**, as of the valuation date, the financial condition of the Plan;
- 2) **Indicate trends** in the financial progress of the Plan;
- 3) **Determine the contribution rate** to be paid by the participating employers for Fiscal Year 2009; and
- 4) **Provide specific information** and documentation required by the Governmental Accounting Standards Board (GASB).

An actuarial valuation establishes and analyzes Plan assets and liabilities on a consistent basis, and traces the progress of both from one year to the next. It includes measurement of the Plan's investment performance as well as an analysis of actuarial liability gains and losses.

Section I presents a summary containing our findings and disclosing important trends experienced by the Plan in recent years.

Section II contains details on various asset measures, together with pertinent performance measurements.

Section III shows similar information on Plan liabilities, measured for actuarial, accounting, and government reporting purposes.

Section IV develops the employer contribution rate determined using actuarial techniques.

Section V includes the required disclosures under GASB Statement number 25.

The appendices to this report contain a summary of the Plan's membership at the valuation date, a summary of the major provisions of the Plan, and the actuarial methods and assumptions used in the valuations.

In preparing our report, we relied without audit, on information (some oral and some written) supplied by the Office of Pension's staff. This information includes, but is not limited to, plan provisions, employee data, and financial information.

The actuarial assumptions reflect our understanding of the likely future experience of the Plan and the assumptions as a whole represent our best estimate for the future experience of the Plan. The results of this report are dependent upon future experience conforming to these assumptions. To the extent that future experience deviates from the actuarial assumptions, the true cost of the Plan could vary from our results.

Finally, in preparing this report, we have conformed to generally accepted actuarial principles and practices which are consistent with the Code of Professional Conduct, and applicable Actuarial Standards of Practice set out by the Actuarial Standards Board.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION I BOARD SUMMARY

General Comments

The actuarially determined contribution rate increased from 6.20% for FY 2008 to 6.44% for FY 2009. During the year ended June 30, 2007, the Plan's assets earned 17.0% on a market value basis. However, due to the Plan's asset-smoothing technique and an accumulation of past asset losses, the return on the actuarial asset value was 10.2%. This return was above the assumed rate of return of 8.0% and resulted in an actuarial gain on investments of \$195.5 thousand.

The plan also experienced an actuarial loss on Plan liabilities resulting from salary increases different than assumed and members retiring, terminating, becoming disabled, and dying at rates different from the actuarial assumptions. The loss added \$446 thousand to the actuarial liability. This type of activity is normal in the course of plan experience. The Plan will experience actuarial gains and losses over time because we cannot predict exactly how people will behave. When a plan experiences alternating gains and losses that are small compared to the total actuarial liability, then the plan's actuarial assumptions are reasonable.

As of the June 30, 2007 actuarial valuation, the Plan's unfunded actuarial liability/(surplus) was \$1,173 thousand. This is an increase from last year's unfunded actuarial liability/(surplus) of \$693 thousand.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION I BOARD SUMMARY

Trends

Growth in Assets

The market value of assets (MVA) grew substantially over the last year, returning almost 17%. The determination of the plan's actuarial value of assets reflects only a portion of the return in excess of 8%.

Over the period July 1, 1996 to June 30, 2007 the Plan's assets returned approximately 10.2% per year measured at actuarial value, compared to a valuation assumption of 8% per year.

Assets and Liabilities

The three colored bars represent the three different measures of liability mentioned in this report. For funding purposes, the target amount is represented by the top of the gray bar. We compare the actuarial value of assets to this measure of liability in developing the funded percent. These are the percentages shown in the graph labels.

The amount represented by the top of the pink bars, the Present Value of Future Benefits (PVFB), is the amount needed to provide all benefits for the current participants and their beneficiaries. If the Plan had assets equal to the PVFB no contributions would, in theory, be needed for the current members.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION I BOARD SUMMARY

Contribution Rates

The stacked bars in this graph show the contributions made by the participating employers and the members (left hand scale). The black line shows the employer contribution rate as a percent of payroll (right hand scale).

The member contribution rate is set by State law, depending on which plan the member participates in. The employer contribution rate is set by the actuarial process. When new employers opt to provide prior service, there is an assessment made at the time of entry. Some employers pay this immediately, resulting in the erratic history of dollar contributions.

Participant Trends

The graph at the right shows the rapid growth in this Plan over the last few years as more employers opt to participate. Since this is a relatively young pension plan, there are still far more active participants than retirees.

The black line shows the covered compensation and is read using the right-hand scale.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION I BOARD SUMMARY

Future Outlook

Base Line Projections

These graphs show the expected progress of the Plan over the next ten years assuming the Plan's assets earn 8% on their *market value*. The chart entitled "Plan Funding" shows that the employer rate is expected to decline as excluded investment gains are recognized by the smoothing method.

The "Assets and Liabilities" graph shows the projected funding status over the next ten years. The Plan's funded status is projected to improve annually.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION I BOARD SUMMARY

Projections With Asset Returns of 9.5%

The future funding status of this Plan will be largely driven by the investment earnings. Due to the size of assets, as compared to liabilities, the Plan is in a highly leveraged position. This means that relatively minor changes in market returns can have significant effects on the Plan's status. The next two charts show what the next ten years would look like with a 9.5% annual return in each year. The Plan has earned an average 9.6% per year over the ten-year period ending June 30, 2007.

As you can see, the Plan would reach 100% funding by 2011. The contribution rate drops to below 5% of payroll by fiscal year 2016.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION I BOARD SUMMARY

Projections With Asset Returns of 6.5%

To further demonstrate how the future funding of this Plan will be driven by investment earnings, we show the anticipated plan funding projections if the invested assets earn 6.5% per year over the entire ten year period.

Under this scenario the employer contribution rate still drops for a few years since the unrecognized gains act as a cushion against returns less than 8%. Once the cushion has been exhausted the rate increases and the funding status declines.

Administrative Expense	0.40%	0.40%	
Total State Contribution	6.20%	6.44%	

* Assumes one year of payroll projection.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION II ASSETS

Pension Plan assets play a key role in the financial operation of the Plan and in the decisions the Trustees may make with respect to future deployment of those assets. The level of assets, the allocation of assets among asset classes, and the methodology used to measure assets will likely impact upon benefit levels, employer contributions, and the ultimate security of participants' benefits.

In this section, we present detailed information on Plan assets including:

- **Disclosure** of Plan assets at June 30, 2006 and June 30, 2007;
- Statement of the **changes** in market values during the year;
- Development of the **Actuarial Value of Assets**;
- An assessment of **investment performance**; and
- A projection of the plan's expected **cashflows** for the next ten years.

Disclosure

The market value of assets represents a "snap-shot" or "cash-out" values which provide the principal basis for measuring financial performance from one year to the next. Market values, however, can fluctuate widely with corresponding swings in the marketplace. As a result, market values are usually not suitable for long-range planning.

The actuarial values are market values which have been smoothed and are the actuary's best estimate of long-term asset values. They are used for evaluating the Plan's ongoing liability to meet its obligations.

Current methods employed by this Plan set the actuarial value equal to the expected value plus 20% of the difference between the expected value of assets and the actual market value. Where the expected value is equal to the prior year's actuarial value, rolled forward with actual contributions and benefit payments plus interest imputed at 8%.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION II
ASSETS

Changes in Market Values	
Value of Assets – June 30, 2006	\$ 8,673,300
<u>Additions</u>	
Member Contributions	\$ 366,500
Employer Contributions	819,800
Investment Return	<u>1,554,100</u>
Total Additions	\$2,740,400
<u>Deductions</u>	
Benefit Payments	\$ 186,700
Administrative Expenses	<u>40,000</u>
Total Deductions	\$ 226,700
Value of Assets – June 30, 2007	\$11,187,000

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

**SECTION II
ASSETS**

Development of Actuarial Value of Assets		
1.	Actuarial Value of Assets at June 30, 2006	\$ 8,529,300
2.	Amount in (1) with interest to June 30, 2007	9,211,600
3.	Employer and member contributions for the Plan Year ended June 30, 2007	1,186,300
4.	Interest on contributions assuming payments made uniformly throughout the year to June 30, 2007 at 8.00% per year	47,500
5.	Disbursements from Trust except investment expenses, June 30, 2006 through June 30, 2007	226,700
6.	Interest on disbursements to June 30, 2007 at 8.00% per year	9,100
7.	Expected Actuarial Value of Assets at June 30, 2007 = (2) + (3) + (4) – (5) – (6)	10,209,600
8.	Actual Market Value of Assets at June 30, 2007	11,187,000
9.	Excess of (8) over (7)	977,400
10.	Actuarial Value of Assets at June 30, 2007 = (7) + 20% of (9)	\$ 10,405,100

Actuarial Value of Assets

The actuarial value of assets represents a “smoothed” value developed by the actuary to reduce, or eliminate, erratic results which could develop from short-term fluctuations in the market value of assets. For this Plan, the actuarial value has been calculated by adding 20% of the difference between market value and expected value to the expected value. The above table illustrates the calculation of actuarial value of assets for the June 30, 2007 valuation.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

**SECTION II
ASSETS**

Investment Performance

The market value of assets (MVA) returned 16.98% during 2007, which is greater than the assumed 8% return. A return of 10.17% on the actuarial value of assets (AVA) is primarily the result of the asset smoothing method being utilized for the calculation of the Actuarial Value of Assets. Since only 20% of the gain or loss from the performance of the Plan is recognized in a given year, in periods of very good performance, the AVA can lag significantly behind the MVA. In a period of negative returns, the AVA does not decline as rapidly as the MVA.

Year Beginning July 1,	Expected Benefit Payments	Expected Contributions*
2007	\$ 220,000	\$ 1,462,000
2008	271,000	1,517,000
2009	328,000	1,574,000
2010	389,000	1,633,000
2011	470,000	1,694,000
2012	573,000	1,758,000
2013	697,000	1,824,000
2014	821,000	1,892,000
2015	954,000	1,963,000
2016	1,096,000	2,037,000

Expected benefit payments are projected for the closed group valued at June 30, 2007. Projecting any farther than ten years using a closed-group would not yield reliable predictions due to the omission of new hires.

* Expected contributions include participating employer contributions and member contributions. For illustration purposes, we have assumed the employer contribution rate will remain level and that payroll will increase at the actuarially assumed rate of 3.75% per year.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION III LIABILITIES

In this section, we present detailed information on Plan liabilities including:

- **Disclosure** of Plan liabilities at June 30, 2006 and June 30, 2007; and
- Statement of **changes** in these liabilities during the year;

Disclosure

Several types of liabilities are calculated and presented in this report. Each type is distinguished by the people ultimately using the figures and the purpose for which they are using them.

- **Present Value of Benefits:** Used for analyzing the financial outlook of the Plan, this represents the amount of money needed today to fully pay off all future benefits and expenses of the Plan, assuming participants continue to accrue benefits.
- **Actuarial Accrued Liability:** Used for funding calculations and GASB disclosures, this liability is calculated taking the Present Value of Benefits and subtracting the present value of future Member Contributions and future Employer Normal Costs under an acceptable actuarial funding method. This method is referred to as the **Entry Age Normal** funding method.
- **Present Value of Accrued Liabilities:** Used for communicating the current level of liabilities, this liability represents the total amount of money needed today to fully pay off the current accrued obligations of the Plan, assuming no future accruals of benefits. These liabilities are also required for accounting purposes (FAS 35) and used to assess whether the Plan can meet its current benefit commitments.

The following table discloses each of these liabilities for the current and prior valuations. With respect to each disclosure, a subtraction of the appropriate value of Plan assets yields, for each respective type, a **net surplus** or an **unfunded liability**.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

**SECTION III
LIABILITIES**

Liabilities/Net (Surplus)/Unfunded		
	June 30, 2006	June 30, 2007

Present Value of Benefits (PVB)	\$ 17,530,000	\$ 21,922,200
Present Value of Future Benefit Accruals (PVFBA)	11,861,200	14,794,500
Present Value of Accrued Liability (PVAB=PVB-PVFBA)	5,668,800	7,127,700
Market Value of Assets (MVA)	8,673,300	11,187,000
Net Unfunded (PVAB – MVA)	\$ (3,004,500)	\$ (4,059,300)

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION III LIABILITIES

Changes in Liabilities

Each of the Liabilities disclosed in the prior table are expected to change at each valuation. The components of that change, depending upon which liability is analyzed, can include:

- New hires since the last valuation
- Benefits accrued since the last valuation
- Plan amendments increasing benefits
- Passage of time which adds interest to the prior liability
- Benefits paid to retirees since the last valuation
- Participants retiring, terminating, or dying at rates different than expected
- A change in actuarial or investment assumptions
- A change in the actuarial funding method

Unfunded liabilities will change because of all of the above, and also due to changes in Plan assets resulting from:

- Employer contributions different than expected
- Investment earnings different than expected
- A change in the method used to measure plan assets

In each valuation, we report on those elements of change which are of particular significance, potentially affecting the long-term financial outlook of the Plan. Below we present key changes in liabilities since the last valuation.

(In Thousands)	Present Value of Benefits	Actuarial Accrued Liability	Present Value of Accrued Liability
Liabilities June 30, 2006	\$ 17,530,000	\$ 9,222,200	\$ 5,668,800
Liabilities June 30, 2007	21,922,200	11,577,900	7,127,700
Liability Increase (Decrease)	4,392,200	2,355,700	1,458,900
Change Due to:			
Plan Change	0	0	0
Actuarial (Gain)/Loss	NC *	445,791	NC *
Benefits Accumulated and Other Sources	4,392,200	1,909,909	1,458,900

* NC = not calculated.

	June 30, 2006	June 30, 2007
1. Actuarial Liabilities		
Retiree and Inactive Benefits	\$ 869,200	\$ 1,177,200
Active Members	<u>8,353,000</u>	<u>10,400,700</u>
Total Actuarial Liability	\$ 9,222,200	\$ 11,577,900
2. Actuarial Value of Assets	\$ 8,529,300	\$ 10,405,100
3. Unfunded Actuarial Liability	\$ 692,900	\$ 1,172,800
4. Allocation of Unfunded Actuarial Liability		
Unpaid UAL from Participating Municipalities	\$ 0	\$ 0
5. Net Gain Base for 10 Year Amortization (3-4)	\$ 692,900	\$ 1,172,800

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION IV CONTRIBUTIONS

In the process of evaluating the financial condition of any pension plan, the actuary analyzes the assets and liabilities to determine what level (if any) of contributions is needed to properly maintain the funding status of the Plan. Typically, the actuarial process will use a funding technique that will result in a pattern of contributions that are both stable and predictable.

For this Plan, the funding method employed is the **Entry Age Actuarial Cost Method**. Under this method, there are three components to the total contribution: the **normal cost rate**, the **unfunded actuarial liability rate** (UAL rate), and the **administrative expense rate**. The normal cost rate is determined in the following steps. First, for a typical new entrant an individual normal cost rate is determined by taking the value, as of entry age into the plan, of that member's projected future benefits. This value is then divided by the value, also at entry age, of the member's expected future salary. Finally, the total normal cost rate is reduced by the member contribution rate to produce the employer normal cost rate.

The unfunded actuarial liability is amortized over a rolling ten year period. All payments are determined assuming total pay increases by the annual inflation rate.

The assumed administrative expense rate is 0.40% of payroll. This rate, when applied to payroll, is intended to provide an allowance above the cost of funding the benefits to pay for the expense of operating the Plan.

The table below presents and compares the employer contribution rates for the Plan for this valuation and the prior one.

Employer Contribution Rate		
	June 30, 2006	June 30, 2007
Entry Age Normal Cost Rate	5.14%	5.14%
Amortization Payment	0.66%	0.90%
Expense	<u>0.40%</u>	<u>0.40%</u>
Actuarially Determined Contribution	6.20%	6.44%

**SECTION IV
CONTRIBUTIONS**

Development of Plan Cost as of June 30, 2007		
	In Dollars	As % of Payroll
1. Present value of projected benefits attributable to:		
a. Total Normal Cost	\$ 1,252,600	7.74%
b. Expected Members Contribution	<u>420,800</u>	<u>2.60%</u>
c. Employer Paid Normal Cost (a) – (b)	\$ 831,800	5.14%
2. Amortization of Unfunded Liability	\$ 145,500	0.90%
3. Allowance for Expense	\$ 64,700	0.40%
4. Total Employer Contribution Rate (1) + (2) + (3)	\$ 1,042,000	6.44%

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

SECTION V ACCOUNTING STATEMENT INFORMATION

Statement No. 35 of the Financial Accounting Standards Board requires the Plan to disclose certain information regarding its funded status. Statement No. 25 of the Governmental Accounting Standards Board (GASB) establishes standards for disclosure of pension information by public employee retirement systems (PERS) and governmental employers in notes to financial statements and supplementary information.

The FASB-35 disclosures provide a quasi “snap shot” view of how the Plan’s assets compare to its liabilities if contributions stopped and accrued benefit claims had to be satisfied. However, due to potential legal requirements and the possibility that alternative interest rates would have to be used to determine the liabilities, these values may not be a good indication of the amount of money it would take to buy the benefits for all members if the Plan were to terminate.

The GASB-25 actuarial accrued liability is the same as the actuarial liability amount calculated for funding purposes.

Both the present value of accrued benefits (FASB-35) and the actuarial accrued liability (GASB-25) are determined assuming that the Plan is on-going and participants continue to terminate employment, retire, etc., in accordance with the actuarial assumptions. Liabilities are discounted at the assumed valuation interest rate of 8% per annum.

FASB Statement No. 35 specifies that a comparison of the present value of accrued (accumulated) benefits with the market value of the assets as of the valuation date must be provided. GASB Statement No. 25 requires the actuarial accrued liability be compared with the actuarial value of assets for funding purposes. The relevant amounts as of June 30, 2007 are exhibited in Table V-1. Finally, Table V-2 reconciles the FASB-35 liabilities determined as of the prior valuation, July 1, 2006, to the liabilities as of June 30, 2007.

Tables V-3 through V-5 are exhibits to be used with the State CAFR report. Table V-3 is the Note to Required Supplementary Information, Table V-4 is a history of gains and losses in Accrued Liability, and Table V-5 is the Solvency Test which shows the portion of Accrued Liability covered by Assets.

Passage of Time	446,000
Benefit Paid – FY 2007	(186,700)
Plan Change	0
Benefits Accrued, Other Gains/Losses	<u>1,199,600</u>
Net Increase (Decrease)	1,458,900
Actuarial Present Value of Accrued Benefits at June 30, 2007	\$7,127,700

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

**SECTION V
ACCOUNTING STATEMENT INFORMATION**

**Table V-3
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION**

The information presented in the required supplementary schedules was determined as part of the actuarial valuation at the date indicated. Additional information as of the latest actuarial valuation follows.

Valuation date	July 1, 2007
Actuarial cost method	Entry age
Amortization method	Level percent open
Remaining amortization period	Ten years
Asset valuation method	5-Year smoothed market
Actuarial assumptions:	
Investment rate of return*	8.0%
Projected salary increases*	4.3%-9.89%
*Includes inflation at	3.75%
Cost-of-living adjustments	ad hoc

The actuarial assumptions used have been recommended by the actuary and adopted by the Plan's Board of Trustees based on the most recent review of the Plan's experience, completed in 2004.

The rate of employer contributions to the Plan is composed of the normal cost, amortization of the unfunded actuarial accrued liability and an allowance for administrative expenses. The normal cost is a level percent of payroll cost which, along with member contributions, will pay for projected benefits at retirement for the average plan participant. The actuarial accrued liability is that portion of the present value of projected benefits that will not be paid by future employer normal costs or member contributions. The difference between this liability and the funds accumulated as of the same date is the unfunded actuarial accrued liability. The allowance for administrative expenses is based upon the Plan's actual administrative expenses.

None.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

APPENDIX B ACTUARIAL ASSUMPTIONS AND METHODS

B. Actuarial Methods

1. Funding Method

The Entry Age Normal Actuarial Cost Method is used to determine costs. Under this funding method, a normal cost is determined as a level percent of pay for a typical new entrant. The normal cost rate times payroll equals the normal cost. The normal cost plus member contributions will pay for projected benefits at retirement for the average plan participant.

The actuarial accrued liability is that portion of the present value of projected benefits that will not be paid by future employer normal costs or member contributions. The difference between this liability and funds accumulated as of the same date is referred to as the unfunded actuarial liability.

The portion of the actuarial accrued liability in excess of plan assets is funded according to a schedule which is intended to amortize such unfunded actuarial liability fully after a period of years. This is in addition to each year's employer normal cost. Under this cost method, actuarial gains and losses are directly reflected in the size of the unfunded actuarial liability.

The unfunded liability is amortized over a rolling ten year period from each valuation date. The payments are determined so that they will increase by the annual inflation rate.

2. Actuarial Value of Assets

For purposes of determining the employer contribution rate to the plan we use an actuarial value of assets. The asset adjustment method dampens the volatility in asset values that could occur because of fluctuations in market conditions. Use of an asset smoothing method is consistent with the long-term nature of the actuarial valuation process.

The actuarial value of assets is a weighted average giving 20% weight to the current market value and 80% weight to the prior year's actuarial value increased by expected interest and contributions and decreased by benefit payments and expenses. This is mathematically equivalent to recognizing 100% of the actuarially assumed interest rate, plus contributions, less payments each year, and 20% of the portion of each year's returns that have not already been reflected in asset values.

3. Changes Since Last Valuation

None.

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

APPENDIX C SUMMARY OF PLAN PROVISIONS

1. Membership

The plan covers full-time or regular part-time employees and elected or appointed officials of a county or municipality including state governmental subdivisions.

2. Member Contributions

3% of compensation which exceeds \$6,000 per annum.

Interest is credited at the rate of 5% per year.

Member contributions are made through an “employer pick-up” arrangement which results in deferral of taxes on the contributions.

3. Credited Service

All service as a member plus certain claimed and purchased service.

4. Final Average Compensation

Final Average Compensation is the average over the highest 60 consecutive months (or shorter period of total service).

5. Normal Retirement

Eligibility: (i) Age 62 with five years of credited service; or (ii) age 60 with 15 years credited service; or (iii) any age with 30 years of credited service.

Benefit: 1 2/3% of final average compensation for each year of credited service.

6. Early Retirement

Eligibility: Age 55 with 15 years of credited service.

Benefit: Normal retirement benefit reduced by 0.4% for each month the member is under age 60 at the time of retirement.

7. Disability Benefit

Eligibility: Five years of credited service

Benefit: Normal retirement benefit

DELAWARE COUNTY & MUNICIPAL EMPLOYEES' PENSION PLAN

APPENDIX C SUMMARY OF PLAN PROVISIONS

8. Survivor's Benefit

Eligibility: Death while active with five years of credited service or death after retirement.

Benefit: For eligible survivors of employees who die in active service: 50% of normal retirement benefit employee would have been eligible to receive at age 62.

For eligible survivors of pensioners who die: 50% of pension received immediately prior to death.

Eligible survivors include: (1) widow or widower; (2) child or children under age 18, or between 18 and 22 and attending school on a full-time basis, or over 18 and permanently disabled before 18; or (3) dependent parent or parents.

9. Vesting

Eligibility: Five years of credited service

Benefit: Normal retirement benefit payable at age 62 based on final average compensation and service at date of termination. In lieu of a pension, a member may receive a refund of accumulated employee contributions with interest. Upon application for a refund of contributions a member's vested right to a monthly benefit shall be forfeited.

10. Withdrawal of Employee Contributions

Eligibility: Terminates service and is not eligible for other benefits.

Benefit: Accumulated employee contributions with interest.

11. Changes Since Last Valuation

None.
