

Clearing cache for PC Internet Explorer

1. Select Tools (via the Gear Icon) > Safety > Delete browsing history....

NOTE: You can also access this menu by holding Ctrl + Shift + Delete.

The screenshot shows the Internet Explorer browser window with the address bar set to 'about:blank'. The Tools menu (gear icon) is open, and the 'Safety' option is highlighted. The 'Delete browsing history...' option is also highlighted within the Safety submenu. The keyboard shortcuts 'Ctrl+Shift+Del' and 'Ctrl+Shift+P' are visible next to the respective options.

2. Make sure to uncheck Preserve Favorites website data and check both Temporary Internet Files and Cookies then click Delete.

The screenshot shows the 'Delete Browsing History' dialog box. The 'Delete' button at the bottom right is highlighted with a red circle. The dialog box contains several options with checkboxes:

- Preserve Favorites website data**
Keep cookies and temporary Internet files that enable your favorite websites to retain preferences and display faster.
- Temporary Internet files**
Copies of webpages, images, and media that are saved for faster viewing.
- cookies**
Files stored on your computer by websites to save preferences such as login information.
- History**
List of websites you have visited.
- Download History**
List of files you have downloaded.
- Form data**
Saved information that you have typed into forms.
- Passwords**
Saved passwords that are automatically filled in when you sign in to a website you've previously visited.
- InPrivate Filtering data**
Saved data used by InPrivate Filtering to detect where websites may be automatically sharing details about your visit.

3. You will get a confirmation at the bottom of the window once it has successfully cleared your cache and cookies.

The screenshot shows the Internet Explorer browser window with a confirmation message at the bottom: 'Internet Explorer has finished deleting the selected browsing history.' The message is displayed in a yellow box with a close button (X) on the right.
