

## Clearing cache for PC Edge

### Clear Cache Microsoft Edge Browser

#### Step 1:

Open Microsoft Edge Browser and click on the **Hub icon** (three horizontal lines at top bar) and then click History icon.

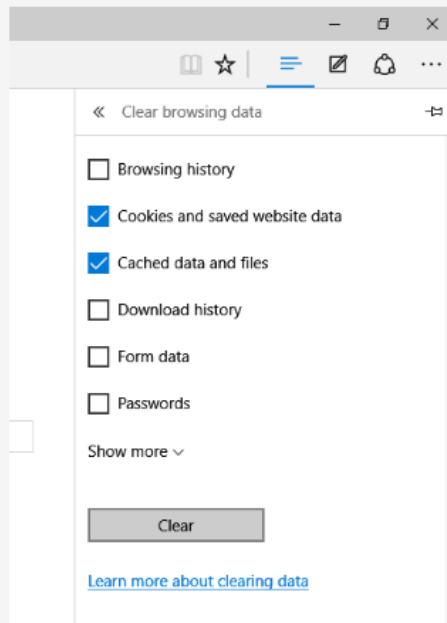

#### Step 2:

Now click **“Clear all history”**.

### Step 3:

Now select "Cookies and saved website data" and "Cached data and files" and click **Clear**.

### Step 4:

That's it. You will see the All Clear! message.
