The image shows a Samsung Galaxy Tab (2.2) screen displaying the browser settings menu. The 'Clear cache' option is selected, and the 'Clear cookies' option is also visible. The screen shows various settings such as 'Open in background', 'Set home page', 'Default storage', 'Privacy settings', 'Clear cache', 'Clear history', 'Clear cookies', 'Remember form data', 'Clear form data', 'Enable location', and 'Clear location access'. The 'Clear cache' and 'Clear cookies' options are both checked with green checkmarks.
