Clearing cache for iPads

1. Tap Settings on the Home screen.

2. Tap Safari in the Settings pane.

3. Tap on each of the components that you wish to clear:
   - Clear History
   - Clear Cookies
   - Clear Cache

4. You will have to confirm each item that you wish to clear. Tap Clear to confirm.

When you are done clearing all of the items there will be no trace of your browsing history in Safari for the iPad.
