Method 10 **Safari on Mobile**

1 Open your iPhone's ⚙ **Settings.** This app is grey with gears on it. You'll usually find it on the Home Screen.

2 Scroll down and tap [**Safari**]. It's about a third of the way down the Settings page.

3 Scroll down to the "GENERAL" group of settings. This is the second large group of settings on the page.

4 Tap the green "Block Pop-ups" switch 🟢. It's near the bottom of the "GENERAL" section of settings. The switch will turn white ⚪, signifying that your iPhone's Safari app will no longer block pop-ups.
