

Disabling Pop Up Blockers/ Turning Off Pop Up Blockers for Samsung Tablet

NOTE: We do not recommend permanently turning off your blocker.

Doing so can leave you vulnerable to malicious programs. So either disable the blocker temporarily or add favorite websites to your browser's safe list, so pop-ups will always appear.

How to Remove Pop-Ups on a Samsung Galaxy Tab

Android Browser

To enable the pop-up blocker in the Android browser, launch the browser app, then tap the "Menu" icon. Open the Settings menu, then click the "Advanced" tab. In the Advanced Settings screen is a "Block Pop-ups" section that enables the feature.

Chrome

In Chrome, open the Settings menu, then select the "Show Advanced Settings" tab. Click the "Content Settings" option in the Privacy section of the Advanced Settings menu. Select the "Manage Exceptions" tab. Here, you can enter the IP addresses of the sites for which you want to block pop-ups.
