

Disabling Pop Up Blockers/ Turning Off Pop Up Blockers for iPad, iPod Touch or iPhone

NOTE: We do not recommend permanently turning off your blocker.

Doing so can leave you vulnerable to malicious programs. So either disable the blocker temporarily or add favorite websites to your browser's safe list, so pop-ups will always appear.

The Safari pop-up blocker can be turned on and off on an iOS device too:

1. From the home screen, open the **Settings** app.
2. Scroll down the list and tap the **Safari** option.
3. In that new list, find the *GENERAL* section.
4. In that section is an option called **Block Pop-ups**. Tap the button to the right to toggle the option on. It will turn green to indicate that Safari is blocking pop-ups.
