

Disabling Pop Up Blockers/ Turning Off Pop Up Blockers for iPhone

NOTE: We do not recommend permanently turning off your blocker.

Doing so can leave you vulnerable to malicious programs. So either disable the blocker temporarily or add favorite websites to your browser's safe list, so pop-ups will always appear.

GOOGLE CHROME on iPhone

**Method
2****Google Chrome on iPhone**

- 1** Open Google Chrome. Tap the Chrome app icon, which resembles a green, yellow, blue, and red sphere.
- 2** Tap . This is in the top-right corner of the screen. A drop-down menu will appear.
- 3** Tap . It's at the bottom of the drop-down menu.
- 4** Tap . This option is near the middle of the screen.
- 5** Tap . You'll find this near the top of the screen.
- 6** Tap the "Block Pop-ups" switch . It will turn white . Doing so turns off the pop-up blocker, thereby allowing pop-ups in Chrome.
 - If the switch is already white, pop-ups are enabled in your Chrome app.
